## DETAILED ACTION

### *Priority*

1. Applicant's claim for domestic priority under 35 U.S.C. 119(e) is acknowledged.

### *Claim Rejections - 35 USC § 112*

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The compounds below, which are listed in claim 1, are incorrect. Please note that the group "C<sub>5</sub>H<sub>6</sub>" is not correct. It appears that the group "C<sub>6</sub>H<sub>5</sub>" was intended. Please clarify. Also note that the specification shows the same problem.

4. Claims 47-51 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The definitions of variables M' and M'' in the formula  $[ \{L\}_n M'(ER)_2 M''(ER)_2 ]$  appears to be incorrect. M' is the Group I-B element and M'' is the III-A element. Please correct.
5. Claim 28 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as

Art Unit: 1621

the invention. The compound "CuGaS" appears to be incorrect. It appears that CuGaS<sub>2</sub> was intended. Please correct.

***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1-5, 7, 8, 10-15, 38-40, 47-51, 57 and 58 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Banger et al., Abstract, 222<sup>nd</sup> ACS National Meeting, Chicago, IL, United States, August 26-30, 2001. The abstract indicates the synthesis of single source precursors of the formula  $[\{ER_3\}_2Cu(YR')_2In(YR')_2]$  where E is P, As, or Sb; Y is S or Se; R and R' are alkyl or aryl. The abstract also indicates that the precursors were utilized for the metalloorganic chemical vapor deposition (MOCVD) of CuInS<sub>2</sub> or CuInSe<sub>2</sub>. Since the subject matter described in the abstract was presented in a public meeting one year prior to the effective filing date of the instant application, therefore said subject matter is prior art under 35 USC 102(b).

8. Claims 1 and 16 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Chhipa et al., Indian Journal of Chemistry, Vol. 28A, No. 5, pp 396-399 (May 1989). The Chhipa et al. reference discloses alkoxocooper(II) tetraisopropoxyaluminates of the formula  $(RO)Cu\{Al(OPr^i)_4\}$  where R is me, Et, Pr<sup>n</sup>, Bu<sup>n</sup>, Bu<sup>s</sup>, Bu<sup>t</sup>, Am<sup>t</sup>. See experimental section.

9. Claims 1-5, 7, 8, 10-15, 38-40, and 45-58 rejected under 35 U.S.C. 102(b) as being clearly anticipated by Banker et al., Applied Organometallic Chemistry, Vol. 16, No. 11, pp.

Art Unit: 1621

617-627 (published online October 8, 2002, see copy of Webpage). The article discloses the synthesis of single-source precursors (SSPs), useful in the development of polycrystalline thin-film solar cells, and their use in the formation of thin-film PVs by spray chemical deposition process. See Scheme 1 and Table 1 on pages 619 and 620 respectively.

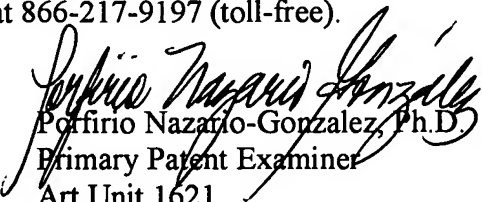

***Allowable Subject Matter***

10. Claims 6, 9, 16-27, 29-37 and 41-44 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
